

FLYING ROBOT

Phone: 123-123-1234

Email: automation-first@uipath.com

Experience

RPA Architect

Defined, designed and deployed RPA architectural solutions for clients.

RPA Developer

Provided solution designs to customers throughout the deployment of new deals, during POCs and project implementation phase.

Junior RPA Developer

Implemented internal automations in order to improve the business processes used throughout the company.

Education

UiPath Certified RPA Associate

UiPath Certified RPA Associate Certification assesses the problem solving and process identification skills, and the ability to build simple automation solutions.

UiPath Certified Advanced RPA Developer

UiPath Advanced RPA Developer Certification assesses deeper-level RPA expertise covering the Robotic Enterprise Framework, and the ability to build complex and efficient RPA solutions independently.

Profile

Capable of going anywhere and doing anything. My strongest ability is to rapidly perform one task and move to another.
